

ALU SIDE DRAIN & ACCESSORIES

Heights: 83 - 133 mm

The Alu Side Drain is a high quality extruded aluminum profile with integrally designed slot drain and drainage channel.

The Alu Side Drain comes fitted with a pre-assembled 'MPP-click system.' This feature not only allows for auto-matic alignment during installation, but is also waterproof and extremely fast.

Properties

- Extruded aluminum profile design as a single unit with continuous 10x25mm lengthwise inlet slots.
- The aluminum profile is provided with a 'complete' 15 µm anodised layer which makes the profile durable and corrosion-resistant.
- Application: outdoor use for garage doors, terraces, drive-ways and around ponds or swimming pools.
- Suitable for tiles, paving stones must be shortened.
- The standard pre-mounted 'outliner' ensures perfect alignment and a quick, waterproof assembly.
- Custom solutions available in both the visible design as well as the length.

HEIGHT

	83 mm		133 mm	
Length (mm)	Weight (kg)	Product no.	Weight (kg)	Product no.
500	1.607	22884	2.060	21568
